WHY HONDURAN COFFEE?

WWW.HONDURAS.NET has been exporting Honduran coffee to the rest of the world since 1996. Our coffee has become so popular that more than a decade later Honduras.Net started its wholesale division. We continue to expand and meet our customer's demands by providing only the best quality Honduran coffee.

Our hand picked coffee beans are grown in the state of La Paz. Honduras has rich volcanic soil and perfect conditions for growing coffee. The climate in Honduras has adequate rainfall. Our highest quality coffee is grown at a very strict altitude, between 1500 and 1700 meters (4921 and 5577 feet) above sea level. **We meet the SHG (Strictly High Grown) criteria.**

Our coffee is 100 % natural, no additives.

With a distribution center in Gainesville, Florida, Honduras.Net places itself in a strategic location to distribute to all of Florida and into Georgia. Three mayor cities, Orlando, Jacksonville and Tampa will be our first targeted areas, along with all of North central Florida.

OUR COFFEE DOES THE WORK.

Here at Honduras.Net, we really haven't done much more than simply introduce people to our coffee. Our coffee does the rest.

We urge you to try our coffee once. You won't be disappointed. We want to start and continue a long term relationship as your gourmet coffee provider.

Our coffee is a strong coffee, but it is extremely smooth without the bitter taste that sets us apart from others.

WHERE IS HONDURAS?

Honduras is located in the middle of Central America, between El Salvador and Nicaragua. It's not that far, only a two hour flight from Miami.

Highlighted country is Honduras.
